Six Monthly Report <smcompliancereport@gmail.com>

Sun, Dec 1, 2024 at 6:31 PM

To: Environment Wing IRO Chandigarh <eccompliance-nro@gov.in>

Dear Sir,

In accordance to the condition of Environmental Clearance for the above project received from State Environmental Impact Authority (SEIAA), Haryana vide EC identification no. **EC22B039HR137715** and File No. **SEIAA/HR/2022/139** dated 11th June 2022, further expansion of the project has been granted vide EC Identification No. **EC23B039HR116175** & File no **SEIAA/HR/2023/317** dated **24th April, 2023**, Further Modification/Amendment in Environment clearance has been granted vide **EC Identification No. EC24B3813HR5766675A** & File No. **SEAC/HR/2024/087** dated 29/07/2024, we are submitting herewith six monthly Compliance report of stipulated condition of Environmental Clearance (in soft copy "as notification in Gazette of India on 28th November 2018") for the period of Upto September 2024.

Due to an error with the E-KYC process, we are currently unable to upload the six-month compliance report on the Parivesh portal. We will submit the report as soon as the issue is resolved.

Thanking you!

Yours Sincerely,

For **M/s DLF HOME DEVELOPERS LIMITED**

CHAPTER-1**INTRODUCTION AND PROJECT DESCRIPTION****1.1 INTRODUCTION**

The Proposed Modification/ Amendment in Environment Clearance of "Group Housing Project over land measuring area 25.087 acres (The Arbour), Village Maidawas, Sector-63, Gurugram, Haryana by M/s DLF Home Developers Limited.

This project has been granted environmental clearance vide **EC Identification No. EC22B039HR137715** & File no **SEIAA/HR/2022/139** dated **11th June, 2022**, further expansion of the project has been granted vide **EC Identification No. EC23B039HR116175** & File no **SEIAA/HR/2023/317** dated **24th April, 2023** by the State Level Environment Impact Assessment Authority, Haryana. Further Modification/Amendment in Environment clearance has been granted vide **EC Identification No. EC24B3813HR5766675A** & File No. **SEAC/HR/2024/087** dated 29/07/2024 by State Environment Impact Assessment Authority (**SEIAA**) and copy of the same is attached as **annexure 01**.

1.2 PROJECT DESCRIPTION**Table 1.1: Brief Description of project (As per Approved EC)**

SN.	Description	Particulars as per previous EC dated 24.04.2023	Proposed Amendment	Total After Amendment	Unit
1	Plot Area	101523.9	No change	101523.9	sqm
2	Proposed Built Up Area	596893.1	No change	596893.1	sqm
3	Proposed Green Area	21545.44	135.78	21681.22	sqm
4	Total no of Saleable DU's	1137	No change	1137	No.
5	Total EWS Units	201	No change	201	No.
6	Max Height of Building (Upto Mumty Machine rm.)	152	No change	152	m
7	Max No of Floors	3B+S+39	No change	3B+S+39	no
8	Expected Population	11223	No change	11223	no
9	Total Water requirement	1031	No change	1031	KLD
10	Fresh water requirement	637	No change	637	KLD
11	Waste water Generation	724	No change	724	KLD
12	Proposed STP Capacity	925	No change	925	KLD
13	No of RWH of Pits proposed	24	No change	24	No.
14	Total Proposed Parking	3709	No change	3709	ECS
15	Municipal Solid Waste Generation	4.77	No change	4.77	TPD
16	Total Power Requirement	14307	No change	14307	KW
17	DG set backup	19600	No change	19600	KVA

1.3 PRESENT STATUS

The project is in construction phase.

1.4 PURPOSE OF THE REPORT

This six-monthly report is being submitted as per the condition stipulated in the Environmental Clearance letter.

Further, the environmental monitoring and compliance check will identify the environmental impacts imparted, if any, due to the project activities.

The environmental monitoring and compliance check is carried out to verify the following: -

- That the project does not have any significant adverse environmental impacts in the project area and its surrounding
- Compliance with the conditions stipulated in the Environmental Clearance Letter.
- The Project Management is implementing the environmental mitigation measures as suggested in the approved Form-1, Form-1A, Environmental Management Plan (EMP), Environmental Clearance letter and other approvals.
- The project proponent is implementing the environmental safeguards in true spirit.

COMPLIANCE OF STIPULATED CONDITIONS OF ENVIRONMENTAL CLEARANCE

Name of Project	Proposed Modification/ Amendment in Environment Clearance of "Group Housing Project over land measuring area 25.087 acres (The Arbour), Village Maidawas, Sector-63, Gurugram, Haryana .
EC Identification No.	EC24B3813HR5766675A
File No.	SEAC/HR/2024/087 dated 29/07/ 2024
Period of compliance Report	upto September 2024

PART A – SPECIFIC CONDITIONS

I.	Sewage shall be treated in the STP based on latest Technology with tertiary treatment i.e. Ultra Filtration to achieve standards ordered by NGT. The Treated effluent from STP shall be recycled /reused for flushing. DG cooling and Gardening. The Dimension of each component of STP should be properly designed as per Norms.	Sewage will be treated in the STP of 925 KLD based on MBBR technology with tertiary treatment i.e. Ultra-filtration during the operation phase. The treated effluent from STP will be recycled/re-used for flushing, gardening, car and street washing.
II.	The Project Proponent would devise a monitoring plan to the satisfaction of the State Pollution Control Board so as to continuously monitor the treated waste water being used for flushing in terms of faecal coli forms and other pathogenic bacteria.	Noted. Same will be complied in operation phase.
III.	The PP shall ensure that total EMP Budget shall be spent on project during construction as well as during operational phase as per table given above. The EMP cost on Socio Economic activities shall be used before the commencement of the project & EMP recurring inside the project shall be implemented throughout the operation of the project. The PP shall establish Environment monitoring cell as per documents submitted.	EMP budget is being spent as per the details given for the construction phase. For Operational phase, EMP will be spent as per the details given in the EC letter. Environmental monitoring cells has been created for the project.
IV.	The project proponent shall upload the status of compliance of the basic details (given in above tables), stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.	Six-monthly compliance report is being uploaded regularly on the website.
V.	The Project Proponents would commission a third-party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats	Same will be complied in operation phase.

	using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.	
VI.	Separate wet and dry bins must be provided in each unit and at ground level for facilitating segregation of waste. Solid Waste shall be segregated into wet garbage and inert materials. Wet Garbage shall be composted in Organic waste convertor. Adequate area shall be provided for solid waste management within the premises which will include area for segregation, composting. The Inert waste from the project will be sent to solid waste dumping site through authorized vender.	Separate wet and dry bins have been provided for segregation of waste at the construction site. Solid waste is being handed over to authorized vendor for safe disposal/recycle in Construction phase. During Operation phase Bio-degradable waste will be decomposed in organic waste convertor and non-biodegradable waste will be handed over to authorized vendor for safe disposal/recycle.
VII.	Traffic management plan as submitted shall be implemented in letter and spirit. Apart, a detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is marinated and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habilitation being carried out or purpose to be carried out by the project or other agencies in this 05kms radius of the site in different scenarios of space and time.	Traffic management plan has been submitted with EC application and same will be implemented in later and sprit. The project is within the master plan of Gurugram.
VIII.	That Green Area as mentioned in the earlier EC dated 11.06.2022 i.e. 21545.44 m ² , 21.22% shall not be truncated/ modified / changed or put to use for the any other purpose.	As per revised EC 21681.22 m ² green area will be developed before the operation of the project site and no change will be done in the green area as mentioned in the EC application.
IX.	The PP shall develop Miyawaki Forest outside the project boundary & surrounded area as specified in the EMP budget.	Noted. The green development will be done as per EMP budget mentioned in the EC application.
X.	That Project Proponent will make efforts to promote the use of solar energy and further promote to install infrastructure for vehicles charging facilities for electrical vehicles to the extent possible.	Provisions for Solar power has been ensured and will be implemented as per details given with EC application. The use of solar energy will be maximized to the extent possible.
XI.	That keeping in view the tall structure of the Project (Height – 152 Meter), Project proponent shall take, adequate measures for "structure stability" & ensure compliance of the relevant guidelines and directions issued by the Competent Authority, in this regard.	Noted for action.

XII.	The Project Proponent shall obtain all necessary clearance/permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.	License, zoning approvals and building plan approvals have been obtained from town planning authority before the start of Construction work. Construction work of building is being carried out in accordance of the approved building plans. Copy of permission from Town and Country planning is attached as Annexure 02 .
XIII.	Consent to establish/operate for the expansion project shall be obtained from the State Pollution Control Board as required under the Air (Prevention and Control of pollution) Act, 1981 and the Water (Prevention and control of pollution) Act, 1974.	Consent to Established from State pollution Control Board has been obtained vide letter no. HSPCB/Consent/:329962323GUNOCTE26520307 , dated 01/06/2023 valid upto 23/04/2033 , Copy of CTE is attached as Annexure 03 .
XIV.	The Approval of the Competent Authority shall be obtained for structural safety of building code due to earthquakes, adequacy of firefighting equipment's etc. as per National Building Code including protection measures from lightening etc.	Statutory clearances have been obtained. application for approval of fire safety has been submitted, copy of application is attached as Annexure 04 . Structure Safety Certificate is attached as Annexure 05 . Lightening protector will be installed as per NBC.
XV.	The PP shall not carry any construction above or below the Revenue Rasta, if any	Construction will not be carried on or above or below the Revenue Rasta.
XVI.	The PP shall not carry any construction below the HT Line passing through the project, if any	No HT Line is passing through the project Site.
XVII.	The PP shall obtain the Fire NOC from the Competent Authority before taking occupation of the building.	NOC Permission for Fire Safety has been applied vide receipt no. 0514 and copy of the same is attached as Annexure 04 .
XVIII.	The PP shall install the Eco-Friendly Green Transformer based on ester oil to reduce the carbon footprint. The PP shall shift to gas-based generator set when the gas is available. The PP shall install APCM for the DG set. The PP shall reduce the SO2 load by 30% if HSD is used. The DG sets will be operated for maximum 04 hours during power failure through Executing Agency	Eco Friendly Green Transformer will be provided at appropriate stage of project development. All the DG sets is of "enclosed type" to prevent noise and should conform to rules made under Environment (Protection) Act 1986, prescribed for air and noise emission standards. Stack height is kept as per CPCB norms. Low-sulphur fuel is being used and the DG sets is being operated only during power failure.
XIX.	The PP shall not give occupation or possession before the water supply and sewage connection permitted by the competent authority.	Occupation or possession will be provided after obtaining the permission from competent authority
XX.	The PP shall carry out the quarterly awareness programs for the stakeholders of the commercial colony/project.	Quarterly awareness programs will be carried out for the stake holders of the project.
XXI.	24 Rain water harvesting recharge pits shall	24 nos. Rain water harvesting pits will be

	be provided for ground water recharging as per the CGWB norms.	provided at appropriate stage of site development.
XXII.	The PP shall install Digital water level recorder for monitoring the water recharge and carry out quarterly maintenance and cleaning of RWH pits.	Digital Water Level Recorder will be provided in Operation phase.
XXIII.	The PP shall take all preventive measures including water sprinkles to control dust during construction and operational phase	Regular water sprinkling is being done to control dust generation from project site during construction phase and same will be done in operation phase also.
XXIV.	The PP shall obtain power assurance from the competent authority.	NOC for Power assurance has been applied and Copy of the application is attached as Annexure 06
XXV.	The PP may provide electric charging stations to facilitate electric vehicle commuters.	Electric charging points/stations as per norms will be provided at the project site during appropriate stage of site development.
XXVI.	The PP shall provide the 04 Anti-smog gun mounted on vehicle in the project for suppression of dust during construction & operational phase and shall use the treated water, if feasible.	Anti-smog guns have been provided at the project site for regular water sprinkling at the project site.
XXVII.	The project is recommended on concept basis as such in case of any change in planning, the PP will obtain fresh EC.	Noted
XXVIII.	Any change in stipulations of EC will lead to Environment Clearance void-ab-initio and PP will have to seek fresh Environment Clearance	Noted

PART B– Standard Conditions/Statutory compliance:

1.	The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority for ground coverage, FAR and should be in accordance with zoning plan approved by competent authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.	All the necessary clearance/permission from all relevant agencies have been obtained before the commencement of work. Construction is being carried out as per the local building bye-law. Zoning Plan is attached as Annexure 07.
2.	The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc. as per National Building Code including protection measures from lightning etc.	Structure Safety Certificate has been obtained, copy of the same is attached as Annexure 05. Application for Fire NOC has been submitted and the acknowledgement receipt is attached as Annexure 04. Lightning protector will be installed as per NBC.

3.	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.	NOC from forest department has been obtained with letter no. R7K-K4G-LG2U dated 15/03/2022, Copy of the same is attached as Annexure 08 .
4.	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	Not Applicable.
5.	The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.	Consent to Established from State pollution Control Board has been obtained vide letter no. HSPCB/Consent/ : 329962323GUNOCTE26520307, dated 01/06/2023 valid upto 23/04/2033 , before the start of construction. Copy of CTE is attached as Annexure 03 .
6.	The project proponent shall obtain the necessary permission for drawl of ground water / surface water required for the project from the competent authority.	No Ground water extraction is involved in the project.
7.	A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.	Applied for Power assurance and Copy of the application is attached as Annexure 06
8.	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, and Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.	Statutory clearances have been obtained. application for approval of fire safety has been submitted, copy of application is attached as Annexure 04 . Structure Safety Certificate is attached as Annexure 05 . Height NOC has been obtained from Airport Authority of India vide letter no. AAI/RHQ/NR/ATM/NOC/2021/476/1957-1960 dated 21.12.2021 and valid upto 20.12.2029 . Explosive license from Chief Controller of Explosives will be obtained for diesel storage, if applicable.
9.	The provisions of the Solid Waste (Management) Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste (Management) Rules, 2016 shall be followed.	All the waste will be managed as per norms during the operation phase of the project, however during construction phase all waste generated at site is being handed over to authorized vendor for safe disposal/recycle.
10.	The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly in addition of bylaws of the State Government.	Construction of the project site is being done as per ECBC-R norms.
i.	Air quality monitoring and preservation	
i.	Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation	Dust mitigation measures like site stored in barricades, water sprinkling, metal roads, cement in enclosures and covering of loose

	Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.	construction materials, has already been provided at site. Notification GSR 94(E) dated 25.01.2018 is being followed.
ii.	A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.	A proper management plan is adopted to contain the current exceedance in ambient air quality at the site.
iii.	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5) covering upwind and downwind directions during the construction period.	Online Monitoring system for continuous monitoring of PM10 and PM2.5 is available at the project site. The project has been registered on dust app portal
iv.	Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.	Ultra-low sulphur diesel is being used to run the DG sets. All the DG sets is of "enclosed type" to prevent noise and should conform to rules made under Environment (Protection) Act 1986, prescribed for air and noise emission standards. Stack height is kept as per CPCB norms.
v.	Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murrum and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.	Dust mitigation measures like site barricades, water sprinkling, metal roads, cement stored in enclosures and covering of loose construction materials, has already been provided at site. Valid PUC certified and plastic/tarpaulin covered vehicles have been used at project site. Anti-smog gun and Site Barricades photographs has been attached as Annexure 10
vi.	Sand, murrum, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.	Sand, murrum, loose soil, cement, stored on site has been covered to prevent dust pollution from site.
vii.	Wet jet shall be provided for grinding and stone cutting	Wet jet will be provided for grinding and stone cutting at appropriate stage of site development.
viii.	Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.	Water sprinkling is being done regularly to suppress dust generation from site.

ix.	All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Management Rules 2016.	All construction debris is being stored at the site before they are properly disposed.
x.	The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.	Ultra-low sulphur diesel is being used for DG set operation at construction site.
xi.	The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution, Control Board (CPCB) norms.	Proper stack height is maintained as per CPCB standard for operation of DG sets. Acoustic enclosure is provided to the DG sets to mitigate the noise pollution.
xii.	For indoor air quality the ventilation provisions as per National Building Code of India.	Ventilation system has been designed and will be installed as per NBC.
II.	Water quality monitoring and preservation	
i.	The natural: drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, or wetland and water bodies. Check dams, bio-swales, landscape, other-sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.	Natural drainage will be ensured for unrestricted flow of water. No construction will be allowed to obstruct the natural drainage of water system.
ii.	Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.	Noted.
iii.	Total fresh water shall not exceed the proposed requirement as provided in the project details. The per capita supply should adhere to NBC 2016 and CGWA notification dated 12.12.2018.	Fresh water requirement will not exceed as provided in the project details and will adhere to NBC 2016 and CGWA notification.
iv.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.	Water meters will be installed for all source and supply mainlines (usage wise) to record the water consumption during operation phase, which will assist in monitoring the water balance. The water balance diagram has already been submitted along with application.
v.	A certificate shall be obtained from the local	Water supply assurance letter has been

	body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, tile quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.	obtained with letter no. EE(Proj)GMDA/2022/219 dated 05/04/2022 and copy of the same is attached as Annexure 11 .
vi.	At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.	Same will be complied.
vii.	Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bail-ling etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.	Dual pipe plumbing will be used for supply of fresh water for drinking, cooking and bathing, other for supply of recycled water for flushing, landscape irrigation and for other purpose will be used.
viii.	Use of water saving devices, fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.	Use of water saving devices and fixtures for water conservation has been incorporated in this building design.
ix.	Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.	This is single stack system where all waste water will be routed to STP for treatment. Dual plumbing system will be provided in the form of separate recirculation lines for flushing and other uses of treated effluent.
x.	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.	Pre-mixed concrete, curing agents and other best practices are being used to reduce water demand.
xi.	The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain water harvesting recharge pts shall be provided for rain water harvesting after filtration as per CGWB guideline.	RWH system has been designed in accordance with the local by-laws, model building by-laws and CGWB guidelines. The RWH system will consist of RWH pits, oil and grease separator, sedimentation tank, filter media and recharge wells for recharging the ground water. 24 nos. of RWH pits will be provided.
xii.	A rain water harvesting plan needs to be designed where the recharge bores of minimum ore recharge bore per 5,000 square meters of built-up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested	The criteria have been considered in the calculation of numbers of Rain water harvesting pits. Ground water will not be used for the project. Ground water will not be withdrawn without approval from the Competent Authority.

	and stored for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.	
xiii.	All recharge should be limited to shallow aquifer.	Noted.
xiv.	No ground water shall be used during construction phase of the project.	Ground water will not be used during the construction phase of the project.
xv.	Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.	Dewatering of ground water is not involved in the project.
xvi.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.	The water balance diagram has already been submitted along with application. Records of fresh water usage, water recycling and rainwater harvesting will be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports during operation phase of the project.
xvii.	Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC makeup water and gardening. As proposed no treated water shall be disposed in to municipal drain.	Sewage will be treated in the STP of 925 KLD based on MBBR technology with tertiary treatment i.e. Ultra filtration. The treated effluent from STP will be recycled/re-used for flushing, AC makeup water, gardening, car and street washing.
xviii.	No sewage or untreated effluent water would be discharged through storm water drains.	No sewage or untreated effluent water will be discharged through storm water drains. Assurance for Sewerage Connection for disposal of 257 KLD surplus domestic treated effluent in Master Sewer line has been obtained with vide letter no. GMDA/SEW/2022/328 dated 30/03/2022, attached as Annexure 12 .
xix.	Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant. (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.	All the waste water generated at site will be treated at onsite STP with approved MBBR technology. Adequacy report will be submitted to the Ministry before the project is commissioned for operation. Treated water will be used for landscape, flushing, etc. excess treated water will be discharged in public sewer line with prior permission from competent authority
xx.	Periodical monitoring of water quality of	Same will be complied in operational phase of

	treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.	the project.
xxi.	Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.	Sludge from onsite sewage will be collected and used as manure for landscape and horticulture development, surplus sludge will be disposed as per the Ministry of Urban Development, CPHEEO manual on sewerage and sewage treatment.
III.	Noise monitoring and prevention	
i.	Ambient noise levels shall conform to residential area/commercial area/industrial area/silence zone both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.	Noise level conform to residential standard both during day and night as per Noise pollution rule. Monitoring has been carried out in the month of September 2024 and the report is attached as an Annexure 09 .
ii.	Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.	Same has been complied and monitoring report is attached as annexure 09 .
iii.	Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.	DG sets with acoustic enclosures and proper stack height has been provided at the project site.
IV.	Energy Conservation measures	
i.	Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency as per ECBC act 2017 read with ECBC rule, 2018 shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC also is in no case should be less than 25% as prescribed.	Applicable ECBC-R norms and energy conservation measures will be followed as submitted in the EC application
ii.	Outdoor and common area lighting shall be LED.	LED will be used for common area lightening
iii.	Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal	Same will be complied.

	mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specification.	
iv.	Energy conservation measures like installation of CFLs/ LED for the lighting the area outside The building should be integral part of the project design and should be part of the project commissioning.	Energy efficient luminaries like LEDs will be used within project site. Used/damaged LEDs will be stored at designated places within site and handed over to authorized recycler for proper disposal as per norms.
v.	Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-law's requirement, whichever is higher.	Same will be complied.
vi.	Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating provided to meet 20% of the hot water demand of the commercial building or as per the requirement of the local building whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.	Same will be complied.
vii.	The PP will submit report indicating compliance of each parameter of ECBC requirement and submit quantification saving report for each component.	Applicable ECBC norms and energy conservation measures will be followed as submitted in the EC application.
V.	Waste Management	
i.	A certificate from the competent authority handling municipal solid wastes, indicating the exiting civic capacities of handling and their adequacy to cater to the M.S.W, generated from project shall be obtained.	Noted and same will be complied.
ii.	Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	Disposal of muck is being done taking the necessary precaution for general safety and health aspect.
iii.	Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.	Separate wet and dry waste bins have been provided for segregation of waste. During operation phase, bio-degradable waste will be composted in onsite OWC and manure will be used for landscaping and non-biodegradable waste will be handed over to authorized recycler for safe disposal/recycle.
iv.	Organic Waste Converter within the premises with a minimum capacity of 0.5	Organic waste converter will be provided at site at appropriate stage of site development

	kg /person/day must be installed. Leaves to be put in earmarked pits for converting them into compost to be used as manure.	to compost Bio-degradable waste.
v.	All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.	All non-biodegradable waste will be handed over to authorized recycler for disposal as per norms during operation phase.
vi.	Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.	As this is a building and construction project, the only hazardous waste generated is spent oil from DG which is being disposed of as per applicable rules and norms with necessary approval by SPCB.
vii.	Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.	Environment friendly materials like bricks, blocks and other construction materials are being used in construction work.
viii.	Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.	Fly-ash based cement and other building materials like bricks and blocks is being used in the construction of building. Ready mix concrete is being used in building construction.
ix.	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.	All construction debris is being stored at the site before they are properly disposed.
x.	Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.	E waste will be collected separately and provided to authorize recycler for safe disposal.
VI.	Green Cover	
i.	No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the forest department. Plantation to be ensured species (cut) to species (planted).	Total 79 nos. of Tree cutting/Transplant are involved in this project. Permission from Forest department has been obtained vide reference no. XFH-LKM-78FU. And copy of the same is attached as Annexure 13 . Compensatory Tress will be planted at appropriate stage of site development.
ii.	A minimum of 1 tree (5' tall) for every 80 sqm. of land should be planted and maintained. The existing trees will be counted for this purpose. The landscape planning should include plantation of native	The criteria have been followed in calculating the nos. of tree to be planted at the project site. Plant species selected for the project are mostly indigenous type with less water demand.

	species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and or invasive species should not be used for landscaping.	
iii.	Where the trees need to be cut with prior permission from the concerned local authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantation to be ensured species (cut) to species (planted). Area of green belt development shall be provided as per the details provided in the project document.	Total 79 nos. of Tree cutting/Transplant are involved in this project. Permission from Forest department has been obtained vide reference no. XFH-LKM-78FU. And copy of the same is attached as Annexure 13 . Compensatory Tress will be planted at appropriate stage of site development. Proper green belt has been designed and will be developed with peripheral shelter belt.
iv.	Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the Proposed vegetation on site.	Excavated soil has been stored at separate place and will be used for site leveling, back filling/filling raft and road construction. Top layer of soil has been stored and will be used for landscaping/ horticulture development work.
VII.	Transport	
i.	A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria. a. Hierarchy of roads with proper segregation of vehicular and pedestrian traffic. b. Traffic calming measures. c. Proper design of entry and exit points. d. Parking norms as per local regulation.	The parking will be provided as per local regulations and bylaws, parking plan has already submitted with EC application. Entry and Exit points will be properly designed.
ii.	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during nonpeak hours.	PUC certified vehicles are being used for construction work. All vehicles, equipment's and construction machines are conformed to applicable air and noise emission standard.
iii.	A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habilitation being carried out or proposed to	A detailed traffic management has already been submitted with EC Application and same will be implemented in later and sprit.

	be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the state urban development department and the P.W.D./competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.	
VIII.	Human health issues	
i.	All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.	Adequate PPE (masks, hand gloves, safety hard hats, ear plugs, safety shoes, safety goggles, reflective jackets etc, as required) has been provided to labours at construction site
ii.	For indoor air quality the ventilation provisions as per National Building Code of India.	The ventilation system has been designed and will be provided as per NBC norms.
iii.	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.	Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan have already been submitted along with application.
iv.	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	All the necessary and requisite facility is being provided to the construction labours.
v.	Occupational health surveillance of the workers shall be done on a regular basis.	Regular health checkup of the construction workers is ensured.
vi.	A First Aid Room shall be provided in the project both during construction and operations of the project.	First Aid Room with proper medical facility has been available at the site in the construction phase and same will be provided during operation phase. Photographs is attached as Annexure 10
IX.	Corporate Environment Responsibility	
i.	The project proponent shall comply with the provisions of CER, as applicable.	As per MoEF notification vide File no. 22-65/2017-IA.III dated 30th September 2020 CER is part of EMP.
ii.	The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental Policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/ violation of the	Environment Policy is attached as Annexure 15 .

	environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.	
iii.	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.	Noted.
iv.	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted to any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six-Monthly Compliance Report.	Same has already been submitted at the time of EC application.
X	Miscellaneous	
i.	The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.	Advertisement in two local newspapers has already been done, copy of the same is attached as Annexure 14 .
ii.	The copies of the environment clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.	Same has already been complied.
iii.	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis	Same has already been complied.
iv.	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of	Submission of six-monthly compliance reports is being done regularly on time to time.

	Environment, Forest and Climate Change at environment clearance portal.	
v.	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.	Environmental statement for each financial year in Form-V will be submitted in Operation phase of the Project.
vi.	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.	Same will be complied.
vii.	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.	Noted
viii.	The project proponent shall abide by all the commitments and recommendations made in the Form I-A, conceptual plan also that during their presentation to the Expert Appraisal Committee.	Environmental safeguards contained in the application form 1, Form 1A and in environmental clearance order are being implemented in true spirit.
ix.	No further expansion or modifications in the plan shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC)/SEIAA, Haryana. The project proponent shall seek fresh environment clearance under EIA notification 2006, if at any stage there is a change of area of this project.	Noted. No further expansion or modifications in the plan will be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC)/SEIAA, Haryana.
x.	The project is recommended on concept basis as such in case of any change in planning, the PP will obtain fresh EC.	Fresh environmental clearance will be sought in case of any change in planning of approved plan.
xi.	The PP should give unambiguous affidavit giving land promoters in accordance with your ownership and possession of land legal the case referred for environment clearance to SEIAA.	The same will be complied on later stage of project development.
xii.	Concealing factual data or submission of false/fabricated data will result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986	Noted.
xiii.	The Ministry/SEIAA may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.	Noted.

xiv.	The Ministry/SEIAA reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.	Noted.
xv.	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data / information/monitoring reports.	Noted, Full cooperation will be provided to the Regional Office for any requisite data / information/monitoring reports
xvi.	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Trans boundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.	Noted
xvii.	The Project proponent shall not violate any judicial orders/pronouncements issued by any Court/Tribunal	Noted
xviii.	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the Project Proponent if it was found that construction of the project has been started before obtaining prior Environmental Clearance.	Noted.
xix.	Any appeal against this Environmental Clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Noted
xx.	The project proponent is responsible for compliance of all conditions in Environmental Clearance letter and project proponent cannot absolve himself /herself of the responsibility by shifting it to any contractor engaged by project proponent.	Noted
xxi.	The validity of this environment clearance letter is valid up to 10 years from the date of issuance of EC letter in accordance with the MoEF & CC, GoI Notification No. S.O.1807 (E), dated the 12th April, 2022. The environment clearance conditions applicable till life space project will	Noted

	continue to apply. In case of violation the action will be taken as per the laid down law of land. Compliance report shall be sent to this office till life of the project.	
xxii.	If project is not completed within the validity period, then the project proponent shall submit the application for extension of validity within one month before the lapse of validity period of Environment Clearance.	Noted
xxiii.	The Project Proponent should intimate to the Authority as well as to the quarter concerned in case of any change in the present communication address.	Noted

Chapter 3**Details of Environmental Monitoring****3.1 AMBIENT AIR QUALITY MONITORING****3.1.1 Ambient Air Quality Monitoring Stations**

Ambient air quality monitoring has been carried out at one location at project site in the month of September, 2024 to assess the ambient air quality. This will enable to have a comparative analytical understanding about air quality and the changes in the air environment in the study area with respect to the condition prevailing. The location of the ambient air quality monitoring stations are given in **Table 3.1**.

Table 3.1 Details of Ambient Air Quality Monitoring Stations

S. No.	Locn. Code	Location Name/ Description	Environmental Setting
1.	AAQ-1	Project Site	Residential

3.1.2 Ambient Air Quality Monitoring Methodology

Monitoring was conducted in respect of the following parameters:

- Particulate Matter (PM10)
- Particulate Matter (PM2.5)
- Sulphur Dioxide (SO₂)
- Oxides of Nitrogen (NO₂)
- Carbon Monoxide (CO)

The Ambient air sampling was carried out continuously for 24 hour for PM2.5, PM10, SO₂ and NO₂ per day and CO was sampled for 1 hour. The monitoring was conducted for one day at the location. This is to allow a comparison with the National Ambient Air Quality Standards.

The air samples were analyzed as per standard methods specified by Central Pollution Control Board (CPCB) and IS: 5182. The techniques used for ambient air quality monitoring and minimum detectable levels are given in **Table 3.2**.

Fine Particulate Sampler APM 550 instruments have been used for monitoring Particulate Matter 2.5 (PM2.5 i.e. <2.5 microns), and Respirable Dust Sampler APM 450 was used for sampling Respirable fraction (<10 microns), gaseous pollutants like SO₂, and NO₂. Bladder and Aspirator bags were used for collection Carbon monoxide samples. NDIR technique has been used for the estimation of CO.

Table 3.2 Techniques used for Ambient Air Quality Monitoring

S. No.	Parameter	Technique	Technical Protocol
1	Particulate Matter (PM 2.5)	Fine particulate sampler APM 550 Gravimetric Method)	IRDH/SOP/AAQM/01

S. No.	Parameter	Technique	Technical Protocol
2	Respirable Particulate Matter	Respirable Dust Sampler (Gravimetric method)	IS-5182 (Part-23)
3	Sulphur dioxide	Modified West and Gaeke	IS-5182 (Part- 2)
4	Oxides of Nitrogen	Jacob & Hochheiser	IS-5182 (Part-6)
5	Carbon Monoxide	NDIR	IRDH/SOP/AAQM/08

3.1.3 Ambient Air Quality Monitoring Results

The detailed on-site monitoring results of PM2.5, PM10, SO₂, NO₂ and CO are presented in **Table 3.3**.

Table 3.3 Ambient Air Quality Monitoring Results

S. No.	Locn. Code	Location	PM10 (µg/m ³)	PM2.5 (µg/m ³)	SO ₂ (µg/m ³)	NO ₂ (µg/m ³)	CO (mg/m ³)
		LIMIT	100	60	80	80	4
1.	AAQ1	Project Site	155.0	74.0	10.12	27.4	0.98

3.1.4 Discussion on Ambient Air Quality in the Study Area

PM10 and PM 2.5 have been observed higher than the limit 100 µg/m³ & 60 µg/m³ respectively (for residential, rural and other areas as stipulated in the National Ambient Air Quality Standards. SO₂, NO₂ and CO were observed within the corresponding stipulated limits (Limit for SO₂ and NO₂: 80 µg/m³ and limit for CO: 4 mg/m³) at the selected monitoring location. Ambient air quality parameters have been pictorially shown in **Figure 3.1**.

3.2 AMBIENT NOISE MONITORING

3.1.1 Ambient Noise Monitoring Locations

The main objective of noise monitoring in the study area is to assess the present ambient noise levels in project site due to various construction allied activities around the site and increased vehicular movement. A preliminary reconnaissance survey has been undertaken to identify the major noise generating sources in the area. Ambient noise monitoring has been conducted at the boundary of the project site in the month of September, 2024 as given in **Table 3.4**.

Table 3.4 Details of Ambient Noise Monitoring Stations

S. No.	Locn. Code	Location Name/ Description	Present Land use
1.	ANQ1	Project Site	Residential

3.2.2 Methodology of Noise Monitoring

Noise levels were measured using integrated sound level meter manufactured by Envirotech Instrument Pvt. Ltd. The integrating sound level meter is an integrating/ logging type with frequency range of 'A' type as per IS 15675 (Part 1) 2005. This instrument is capable of measuring the Sound Pressure Level (SPL), Leq and SEL on digital display.

Noise level monitoring was carried out continuously for 24-hours with one hour interval starting at 10:00 hrs to 09:00 hrs next day. The noise levels were monitored on working days only. During each hour Leq were directly computed by the instrument based on the sound pressure levels. Lday (Ld), Lnight (Ln) and Ldn values were computed using corresponding hourly Leq. Monitoring was carried out at 'A' response and fast mode.

3.2.3 Ambient Noise Monitoring Results

The ambient noise monitoring result is summarized in **Table 3.5**. The noise levels are graphically presented in **Figure 3.2**.

Table 3.5 Ambient Noise Monitoring Results

Sr. No.	Test Locations	Day Time - dB(A)		Night Time - dB(A)	
		Results	Limits as per CPCB guideline	Results	Limits as per CPCB guideline
ANQ-1	Near Main Gate	53.7	55	42.7	45

3.2.4 Discussion on Ambient Noise Levels in the Study Area

Day Time Noise Levels (L_{day}):

The day time noise level was found within the limit as prescribed for Residential area i.e. 55 db(A).

Night Time Noise Levels (L_{night}):

The night time noise level was found within the limit as prescribed for Residential area i.e. 45 dB (A).

3.3 GROUNDWATER QUALITY MONITORING

Ground water extraction is not involved in the project. Treated water for construction work and fresh water for workers and staff is being supplied by GMDA/HSVP.

3.4 SOIL MONITORING

3.4.1 Soil Monitoring Locations

The objective of the soil monitoring is to identify the impacts of ongoing project activities on soil quality and also predict impacts, which have arisen due to execution of various constructions allied activities. Accordingly, a study of assessment of the soil quality has been carried out.

To assess impacts of ongoing project activities on the soil in the area, the physico-chemical characteristics of soil was examined by obtaining soil sample from selected point and analysis of the same. One sample of soil was collected from the project site in the month of September, 2024 for studying soil characteristics, the location of which is listed in **Table 3.6**.

Table 3.6 Details of Soil Quality Monitoring Location

S. No.	Locn. Code	Location Name/ Description
--------	------------	----------------------------

1.	S1	Project Area
----	----	--------------

3.4.2 Methodology of Soil Monitoring

The sampling has been done in line with IS: 2720 & Methods of Soil Analysis, Part-1, 2nd edition, 1986 of American Society for Agronomy and Soil Science Society of America. The homogenized samples were analyzed for physical and chemical characteristics (physical, chemical and heavy metal concentrations).

The sample has been analyzed as per the established scientific methods for physico-chemical parameters. The heavy metals have been analyzed by using Atomic Absorption Spectrophotometer and Inductive Coupled Plasma Analyzer.

3.4.3 Soil Monitoring Results

The physico-chemical characteristics of the soil, as obtained from the analysis of the soil sample, are presented in **Table 3.7**.

Table 3.7 Physico-Chemical Characteristics of Soil in the Study Area

S. No.	Parameter	Test Method	Results	Unit
1.	pH	IS 2720 P-26 (1987)	8.12	--
2.	Conductivity	IS 14767 (RA 2016)	445.0	μS/cm
3.	Moisture	IS 2720 P-25 (1972)	12.5	% by mass
4.	Water Holding Capacity	IRDH/SOP-SL/07	20.40	%
5.	Specific Gravity	IS 2720 P-3 (1980)	1.91	-
6.	Bulk density	IRDH/SOP-SL/06	1.41	gm/cc
7.	Chloride	IRDH/SOP-SL/14	232.0	mg/kg
8.	Calcium	IRDH/SOP-SL/17	1640.0	mg/kg
9.	Sodium	IRDH/SOP-SL/11	161.0	mg/kg
10.	Potassium	IRDH/SOP-SL/12	52.2	mg/kg
11.	Magnesium	IRDH/SOP-SL/16	152.0	mg/kg
12.	Organic matter	IS 2720 P-22 (1972)	0.53	% by mass
13.	Cation Exchange Capacity(CEC)	IRDH/SOP-SL/09	14.2	meq/100gm
14.	Available nitrogen	IS 14684	57.0	mg/kg
15.	Available Phosphorous	IRDH/SOP-SL/10	7.65	mg/kg
16.	Iron as Fe	IRDH/SOP-SL/22	1240.0	mg/kg
17.	Copper as Cu	IRDH/SOP-SL/21	14.2	mg/kg
18.	Zinc as Zn	IRDH/SOP-SL/20	25.2	mg/kg
19.	Texture	IRDH/SOP-SL/08		% by mass
	Sand		60.1	
	Clay		25.4	
	Silt		14.5	
20.	Sodium Absorption Ratio(SAR)	IRDH/SOP-SL/13	1.02	By calculation

3.4.4 Discussion on Soil Characteristics in the Study Area

Due to construction, nothing is being added to the soil that would affect the quality of the soil therefore the soil quality in the project area is not being affected.

ANNEXURE I

File No.: SEAC/HR/2024/087

Government of India

Ministry of Environment, Forest and Climate Change

grouphousingsector63dlf@gmail.com

Subject: Environmental Clearance (EC) for Proposed Modification/ Amendment in Environment Clearance of "Group Housing Project over land measuring area 25.087 acres (The Arbour), Village Maidawas, Sector-63, Gurugram, Haryana by M/s DLF Home Developers Limited.

Sir/Madam,

This has reference to your Proposal No. SIA/HR/INFRA2/468860/2024 dated 09.04.2024 subsequent letter dated 30.04.2024 and 11.07.2024 for obtaining Environmental Clearance under Category 8(b) of EIA Notification dated 14.09.2006 along with submission of due Scrutiny fee (as applicable) of 2,00,000/- vide DD No. 523227 dated 28.03.2024 (in compliance of Haryana Government, Environment & Climate Change, Department Notification No. DE&CCH/3060 dated 14.10.2021). The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application viz., Form-1, Form 1-A, Conceptual Plan and additional clarifications furnished in response to the observations of the State Expert Appraisal Committee (SEAC) constituted by MoEF&CC, GoI vide their Notification dated 21.02.2022, in its 291st Meeting held on 30.04.2024.

2. The particulars of the proposal are as below :

(i) EC Identification No.	EC24B3813HR5766675A
(ii) File No.	SEAC/HR/2024/087
(iii) Clearance Type	Amendment in EC
(iv) Category	B1
(v) Schedule No./ Project Activity	8(b) Townships/ Area Development Projects / Rehabilitation Centres
(vii) Name of Project	Proposed Modification/Amendment in Environment Clearance of "Group Housing Project over land measuring area 25.087 acres (The Arbour), Village Maidawas, Sector-63, Gurugram,

(viii) Location of Project (District, State)	Haryana GURUGRAM, HARYANA
(ix) Issuing Authority	SEIAA
(x) EC Date	28/07/2024
(xi) Applicability of General Conditions	NO
(xiii) Status of implementation of the project	

3. It is inter-alia, noted that the project involves in the EC for Proposed Modification/ Amendment in Environment Clearance of "Group Housing Project over land measuring area 25.087 acres (The Arbour), Village Maidawas, Sector-63, Gurugram, Haryana.

4. The basic details of project are as under:

SN	Description	Particulars as per previous EC dated 24.04.2023	Proposed Amendment	Total After Amendment	Unit
1	Plot Area	101523.9	No change	101523.9	sqm
2	Proposed Built Up Area	596893.1	No change	596893.1	sqm
3	Proposed Green Area	21545.44	135.78	21681.22	sqm
4	Total no of Saleable DU's	1137	No change	1137	No.
5	Total EWS Units	201	No change	201	No.
6	Max Height of Building (UptoMumty Machine rm.)	152	No change	152	m
7	Max No of Floors	3B+S+39	No change	3B+S+39	no.
8	Expected Population	11223	No change	11223	no.
9	Total Water Requirement	1031	No change	1031	KLD
10	Fresh water requirement	637	No change	637	KLD
11	Waste water Generation	724	No change	724	KLD
12	Proposed STP Capacity	925	No change	925	KLD
13	No of RWH of Pits Proposed	24	No change	24	No.
14	Total Proposed Parking	3709	No change	3709	ECS
15	Municipal Solid Waste Generation	4.77	No change	4.77	TPD
16	Total Power Requirement	14307	No change	14307	KW
17	DG set backup	19600	No change	19600	KVA

5. In view of the recommendations made by State Expert Appraisal Committee (SEAC) in the said case and further consideration of the documents/details submitted by the Project Proponent; the Authority after discussions decided during **178th Meeting held on 11.07.2024 to "GRANT MODIFICATION/AMENDMENT IN EARLIER ENVIRONMENT CLEARANCE" Identification No. EC-23-B-039-HR-116175 issued on 24.04.2023 under Category 8(b) of EIA Notification dated 14.09.2006 issued by the Ministry of Environment and Forest, Government of India, whereas all other contents and conditions mentioned in the earlier issued Environment Clearance will remain same.**

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/HR/INFRA2/420899/2023 dated 04 Mar 2023. The particulars of the environmental clearance granted to the project are as below.

1. EC Identification No.	EC23B039HR116175
2. File No.	SEIAA/HR/2023/317
3. Project Type	Expansion
4. Category	B
5. Project/Activity including Schedule No.	8(b) Townships and Area Development projects.
6. Name of Project	Proposed Expansion of Group Housing Project (25.087 acres), Village Maidawas, Sector-63, Gurugram, Haryana
7. Name of Company/Organization	M/S DLF HOME DEVELOPERS LIMITED
8. Location of Project	HARYANA
9. TOR Date	N/A

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 24/04/2023

(e-signed)
Pardeep Kumar, IAS
Member Secretary
SEIAA - (HARYANA)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.

This is a computer generated cover page.

		CO	0.00265 mg/m ³	

EMP Detail

ENVIRONMENT BUDGET (Construction Phase)		
COMPONENT	CAPITAL COST (Rs in Lacs)	RECURRING COST (Rs in Lacs)/Annum
BARRICADING OF CONSTRUCTION SITE	543	4.4946
ANTI - SMOG GUN WITH COMPLETE ASSEMBLY (4 nos.)	20	9

DUST MITIGATION MEASURES	1.5	0.25
SITE SANITATION	2	1
MOBILE STP	3	1
DISINFECTION/ PEST CONTROL		0.5
LABOUR HEALTH CHECK UP & FIRST AID FACILITY	1	0.5
LABOR WELFARE (canteen, creche, safe access road - water power, cooking kerosene/gas)	2.5	1.5
WHEEL WASHING	1	0.5
WASTE STORAGE BINS - LABOUR CAMP/SITE OFFICES	1.5	0.75
TRAFFIC MANAGEMENT SIGNAGES	1.5	0.15
SAFETY TRAINING TO WORKERS		2
ENVIRONMENT MONITORING & 6 MONTHLY COMPLIANCE REPORT OF EC CONDITIONS		2
TOTAL	577	23.64

Environment Budget (Operation Stage)		
COMPONENT	CAPITAL COST (Rs in Lacs)	RECURRING COST (Rs in Lacs)/ Annum
SEWAGE TREATMENT PLANT	300	100
RAIN WATER HARVESTING SYSTEM	200	22
SOLID WASTE STORAGE BINS & COMPOSTER (Organic Waste Converter)	52	55
HORTICULTURE DEVELOPMENT (TREE PLANTATION & LANDSCAPING)	80	22
ROOF TOP SPV PLANT (173 kwp)	77	2.0
Stack for DG Sets, DG Room enclosure & Acoustic treatment	250	2.0
ENVIRONMENT MONITORING & 6 MONTHLY COMPLIANCES OF ENVIRONMENT CLEARANCE CONDITIONS		2.00
EV Charging	125	20
TOTAL	1084	225

4. In view of the recommendations made by State Expert Appraisal Committee (SEAC) in the said case and further consideration of the documents/details submitted by the Project Proponent; the Authority after discussions decided during **155th Meeting held on 29.03.2023** to **“GRANT ENVIRONMENT CLEARANCE” TO THE PROJECT, UNDER CATEGORY 8(b) OF EIA NOTIFICATION, 2006**, subject to the conditions listed below:

A. Specific Conditions:-

1. Sewage shall be treated in the STP based on latest Technology to achieve standards ordered by NGT. The Treated effluent from STP shall be recycled/ reused for flushing. DG cooling and Gardening. The dimension of each component of STP should be properly designed as per Norms.
2. The Project Proponent would devise a monitoring plan to the satisfaction of the State Pollution Control Board so as to continuously monitor the treated waste water being used for flushing in terms of faecal coli forms and other pathogenic bacteria.

3. The PP shall ensure that total EMP Budget shall be spent on project during construction as well as during operational phase as per table given above. The EMP cost on Socio Economic activities shall be used before the commencement of the project & EMP recurring inside the project shall be implemented throughout the operation of the project. The PP shall establish Environment monitoring cell as per documents submitted.
4. The project proponent shall upload the status of compliance of the basic details (given in above tables), stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
5. The Project Proponents would commission a third party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.
6. Separate wet and dry bins must be provided in each unit and at ground level for facilitating segregation of waste. Solid Waste shall be segregated into wet garbage and inert materials. Wet Garbage shall be composted in Organic waste convertor. Adequate area shall be provided for solid waste management within the premises which will include area for segregation, composting. The Inert waste from the project will be sent to dumping site
7. Traffic management plan as submitted shall be implemented in letter and spirit. Apart, a detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is marinated and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habilitation being carried out or purpose to be carried out by the project or other agencies in this 05kms radius of the site in different scenarios of space and time.
8.

That Green Area as mentioned in the earlier EC dated 11.06.2022 i.e. 21545.44 Sqmtr, 21.22 % shall not be truncated/ modified / changed or put to use for the any other purpose.
9. The PP shall develop Miyawaki Forest outside the project boundary & surrounded area as specified in the EMP budget.
10.

That Project Proponent will make efforts to promote the use of solar energy and further promote to install infrastructure for vehicles charging facilities for electrical vehicles to the extent possible.
11.

That keeping in view the tall structure of the Project (Height – 152 Meter), Project proponent shall take, adequate measures for “structure stability” & ensure compliance of the relevant guidelines and directions issued by the Competent Authority, in this regard.
12. The Project Proponent shall obtain all necessary clearance/permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.
13. Consent to establish/operate for the expansion project shall be obtained from the State Pollution Control Board as required under the Air (Prevention and Control of pollution) Act, 1981 and the Water (Prevention and control of pollution) Act, 1974.
14. The Approval of the Competent Authority shall be obtained for structural safety of building code due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightening etc.
15. The PP shall not carry any construction above or below the Revenue Rasta, if any
16. The PP shall keep the ROW below the HT Line passing through the project, if any.

17. The PP shall obtain the Fire NOC from the Competent Authority before taking occupation of the building.
18. The PP shall install the Eco Friendly Green Transformer based on ester oil to reduce the carbon footprint. The PP shall shift to gas based generator set when the gas is available. The PP shall install APCM for the DG set. The PP shall reduce the SO2 load by 30% if HSD is used. The DG sets will be operated for maximum 04 hours during power failure through Executing Agency
19. The PP shall not give occupation or possession before the water supply, electricity and sewage connection permitted by the competent authority.
20. The PP shall carry out the quarterly awareness programs for the stakeholders of the commercial colony/project.
21. **24 Rain water harvesting recharge pits** shall be provided for ground water recharging as per the CGWB norms.
22. The PP shall install Digital water level recorder for monitoring the water recharge and carry out quarterly maintenance and cleaning **of RWH pits.**
23. The PP shall take all preventive measures including water sprinkles to control dust during construction and operational phase.
24. The PP shall obtain power assurance from the competent authority.
25. The PP may provide electric charging stations to facilitate electric vehicle commuters.
26. The PP shall provide the **04 Anti smog gun** mounted on vehicle in the project for suppression of dust during construction & operational phase and shall use the treated water, if feasible.
27. The project is recommended on concept basis as such in case of any change in planning, the PP will obtain fresh EC.
28. Any change in stipulations of EC will lead to Environment Clearance void-ab-initio and PP will have to seek fresh Environment Clearance.

B. Statutory Compliance:

- [1] The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority for ground coverage, FAR and should be in accordance with zoning plan approved by Competent Authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.
- [2] The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of fire fighting equipment etc as per National Building Code including protection measures from lightening etc.
- [3] The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.
- [4] The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.
- [5] The project proponent shall obtain Consent to Establish/Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the Haryana State Pollution Control Board.
- [6] The project proponent shall obtain the necessary permission for drawl of ground water /surface water required for the project from the competent authority.
- [7] A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.
- [8] All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.
- [9] The provisions of the Solid Waste (Management) Rules, 2016, e-Waste (Management) Rules, 2016, the Plastics Waste (Management) Rules, 2016 and Batteries waste (Management Handling Rules 2001 as amended in 2020) shall be followed.
- [10] The project proponent shall follow the ECBC Act/ECBC-Rules prescribed by

I. Air Quality Monitoring and Preservation

- i. Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.
- ii. A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.
- iii. The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM₁₀ and PM_{2.5}) covering upwind and downwind directions during the construction period.
- iv. Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of ultra lowsulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board
- v. Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murrum and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.
- vi. Sand, murrum, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.
- vii. Wet jet shall be provided for grinding and stone cutting.
- viii. Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.
- ix. All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Rules 2016.
- x. The diesel generator sets to be used during construction phase shall be ultra lowsulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.
- xi. The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Ultra low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.
- xii. For indoor air quality the ventilation provisions as per National Building Code of India.

II. Water Quality Monitoring and Preservation

- i. The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.
- ii. Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.
- iii. Total fresh water use shall not exceed the proposed requirement as provided in

- the project details. The per capita supply should adhere to NBC 2016 and CGWA Notification dated 12.12.2018.
- iv. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
 - v. A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.
 - vi. At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.
 - vii. Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.
 - viii. Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.
 - ix. Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.
 - x. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.
 - xi. The local bye-law provisions on rain water harvesting should be followed. If local byelaw provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain Water Harvesting pits shall be provided for ground water recharging as per the CGWB norms.
 - xii. A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.
 - xiii. All recharge should be limited to shallow aquifer.
 - xiv. No ground water shall be used during construction phase of the project.
 - xv. Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.
 - xvi. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
 - xvii. Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC make up water and gardening. As proposed, no treated water shall be disposed in to municipal drain.
 - xviii. No sewage or untreated effluent water would be discharged through storm water drains.
 - xix. Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms

- notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.
- xx. Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.
- xxi. Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.

III. Noise Monitoring and Prevention

- i. Ambient noise levels shall conform to residential area/commercial area both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.
- ii. Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
- iii. Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

IV. Energy Conservation Measures

- i. Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency as per ECBC Act, 2017 read with ECBC Rules, 2018 shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC also which is in no case should be less than 25% as prescribed.
- ii. Outdoor and common area lighting shall be LED.
- iii. Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof R & U-values shall be as per ECBC specifications.
- iv. Energy conservation measures like installation of CFLs/ LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.
- v. Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.
- vi. Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.
- vii. The PP will submit report indicating compliance of each parameter of ECBC requirement and submit quantification saving report for each component.

V. Waste Management

- i. A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.
- ii. Disposal of muck during construction phase shall not create any adverse effect

- on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
- iii. Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.
 - iv. Organic Waste Converter within the premises with a minimum capacity of 0.5 kg /person/day must be installed. Leaves to be put in earmarked pits for converting them into compost to be used as manure.
 - v. All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.
 - vi. Any hazardous waste generated during construction phase, shall be disposed of as per applicable rules and norms with necessary approvals of the State Pollution Control Board.
 - vii. Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, compressed earth blocks, and other environment friendly materials.
 - viii. Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.
 - ix. Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.
 - x. Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.

VI. Green Cover

- i. No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted).
- ii. A minimum of 1 tree (5' tall) for every 80 sqm of land should be planted and maintained. The existing trees will be counted for this purpose. The landscape planning should include plantation of native species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping.
- iii. Where the trees need to be cut with prior permission from the concerned local Authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantations to be ensured species (cut) to species (planted). Area for green belt development shall be provided as per the details provided in the project document.
- iv. Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.

VII. Transport

- i. A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.

- a) Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
 - b) Traffic calming measures.
 - c) Proper design of entry and exit points.
 - d) Parking norms as per local regulation.
- ii. Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.
 - iii. A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

VIII. Human Health Issues

- i. All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.
- ii. For indoor air quality the ventilation provisions as per National Building Code of India.
- iii. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
- iv. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
- v. Occupational health surveillance of the workers shall be done on a regular basis.
- vi. A First Aid Room shall be provided in the project both during construction and operations of the project.

IX. Corporate Environment Responsibility

- i. The project proponent shall comply with the provisions of CER, as applicable.
- ii. The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/ deviation/ violation of the environmental/ forest/ wildlife norms/ conditions. The company shall have defined system of reporting infringements/ deviation/ violation of the environmental/ forest/ wildlife norms/ conditions and/ or shareholders/ stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
- iii. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.
- iv. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to

be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.

X. Miscellaneous

- 1) The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.
- 2) The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
- 3) The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
- 4) The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
- 5) The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
- 6) The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
- 7) The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
- 8) The project proponent shall abide by all the commitments and recommendations made in the form-IA, Conceptual Plan and also that during their presentation to the Expert Appraisal Committee.
- 9) No further expansion or modifications in the plan shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC)/SEIAA, Haryana. The project proponent shall seek fresh environmental clearance under EIA notification 2006 if at any stage there is change of area of this project.
- 10)

Any deviation/change in stipulations of EC/ Development plan, will leads to Environment Clearance void-ab-initio i.e. EC will become invalid for all intent and purposes.

- 11) The PP should give unambiguous affidavit giving land promoters in accordance with your ownership and possession of land legal the case referred for Environment Clearance to SEIAA.
- 12)

Concealing factual data or submission of false/fabricated data will result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.

- 13) The Ministry/SEIAA may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- 14) The Ministry/SEIAA reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
- 15) The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
- 16) The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.
- 17) The Project proponent shall not violate any judicial orders/pronouncements issued by any Court/Tribunal
- 18) Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the Project Proponent if it was found that construction of the project has been started before obtaining prior Environmental Clearance.
- 19) Any appeal against the this Environmental Clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
- 20) The project proponent is responsible for compliance of all conditions in Environmental Clearance letter and project proponent can not absolve himself /herself of the responsibility by shifting it to any contractor engaged by project proponent.
- 21)

The validity of this environment clearance letter is valid up to 10 years from the date of issuance of EC letter in accordance with the MoEF & CC, GoI Notification No. S.O.1807 (E), dated the 12th April, 2022. The environment clearance conditions applicable till life space project will continue to apply. In case of violation the action will be taken as per the laid down law of land. Compliance report shall be sent to this office till life of the project.

22)

If project is not completed within the validity period then the project proponent shall submit the application for extension of validity within one month before the lapse of validity period of Environment Clearance.

23) The Project Proponent should intimate to the Authority as well as to the quarter concerned in case of any change in the present communication address.

FORM LC-V

(See Rule 12)

LICENCE NO. 123. OF 2012

This License has been granted under the Haryana Development and Regulation of Urban Areas Act, 1975 & the Rules, 1976 made thereunder to Arlie Builders & Developers Pvt. Ltd., Aaliyah Real Estate Developers Pvt. Ltd., Arnon Builders & Developers Pvt. Ltd., Beyla Builders & Developers Pvt. Ltd., Afaaf Builder & Developers Pvt. Ltd., Karena Estates Developers Pvt. Ltd., Alfonso Builders & Developers Pvt. Ltd., Zanobi Builder & Developers Pvt. Ltd., Sh. Ajit Singh s/o Sh. Preetam, C/o DLF New Gurgaon Homes Developers Pvt. Ltd., DLF Shopping Mall, 3rd Floor, Arjun Marg, DLF City, Phase-1, Gurgaon-122002 for development of Group Housing Colony over an area measuring **25.087** acres falling in the revenue estate of village Maidawas, Sector 63 of Gurgaon - Manesar Urban Complex, Distt. Gurgaon.

1. The particulars of the land, wherein the aforesaid Group Housing Colony is to be set up, are given in the Schedule annexed hereto and duly signed by the Director General, Town & Country Planning, Haryana.
2. The License is granted subject to the following conditions:
 - a) That the residential Group Housing Colony will be laid out in confirmation to the approved layout plan and development works are executed according to the designs and specifications shown in the approved plan.
 - b) That the conditions of the agreements already executed are duly fulfilled and the provisions of Haryana Development and Regulation of Urban Areas Act, 1975 and the Rules 1976 made there under are duly complied with.
 - c) That the portion of Sector/Master plan road which shall form part of the licensed area shall be transferred free of cost to the Government in accordance with the provisions of Section 3(3) (a) (iii) of the Haryana Development and Regulation of Urban Areas Act, 1975.
 - d) That licensee shall construct the 12/18/24 m wide service road forming part of the site area at his own cost and the entire area under road shall be transferred free of cost to the Government.
 - e) That you shall take permanent access from service road proposed along the development plan road.
 - f) That licensee shall deposit the Infrastructural Development Charges @ Rs.1000/- per Sqm for commercial component, @ Rs. 625/- per Sqm for Group Housing component in two equal installments i.e. 1st installment will be deposited within 60 days from grant of license and 2nd installments within six months from grant of license, failing which interest @ 18% per annum will liable to be paid for the delayed period.
 - g) That the licensee will integrate the services with HUDA services as per approved service plans and as & when made available.
 - h) That licensee will have no objection to the regularization of the boundaries of the license through give and take with the land, that HUDA is finally able to acquire in the interest of planned development and integrated services. The decision of the competent authority shall be binding in this regard.
 - i) That you shall make arrangements for water supply, sewerage, drainage etc. to the satisfaction of DG, TCP till these services are made available from External Infrastructure to be laid by HUDA/HSIIDC.

- j) That development/construction cost of 24 m/18 m wide major internal roads is not included in the EDC rates and you shall pay the proportionate cost for acquisition of land, if any, alongwith the construction cost of the same as and when finalized and demanded by DGTCP, Haryana.
- k) That the licensee shall submit NOC as required under notification dated 14.09.06 issued by MOEF, GOI before executing development works at site.
- l) That you shall obtain clearance from competent authority, if required under PLPA, 1900 and any other clearance required under any other law.
- m) That you shall pay the labour cess charges as per policy dated 4.5.2010.
- n) That you shall abide by the policy dated 3.2.2010 regarding allotment of EWS flats.
- o) That licensee shall provide rain water harvesting system at site as per Central Ground Water Authority norms/Haryana Govt. notification, as applicable.
- p) That the licensee shall make the provision of solar water heating system as per recommendations of HAREDA and shall make it operational, where applicable, before applying for Occupation Certificate.
- q) That the developer will use only CFL fittings for internal as well as for campus lighting.
- r) That since balance land of Khasra no 27//8/2, 9, 12, 13/1 of village Maidawas, Distt. Gurgaon (after donation of land to Gram Panchayat) is still joining the two pockets of applied land and one pocket to the other pockets is accessible through this land, hence you will not sell the balance piece of land till the access is available through the planed circulation.
- s) The new rates of licence fee and Infrastructure Development Charges stands approved by the Government and therefore, you shall pay the same without any protest as and when demanded by the Department.
- t) That the pace of construction should be atleast in accordance with your sale agreement with the buyers of the flats as and when scheme is launched.
- u) That you shall specify the detail of calculations per Sqm/per sq ft, which is being demanded from the plot owners on account of IDC/EDC, if being charged separately as per rates fixed by Govt.

3. The license is valid up to 19-12-2016

ORDER

Whereas, licence No. 123 of 2012 dated 20.12.2012 was granted in favour of land owner companies/individual in collaboration with DLF Home Developers Ltd. (earlier known as DLF New Gurgaon Home Developers Pvt. Ltd.) for development of group housing colony over an area measuring 25.087 acres in Sector-63, Gurugram Manesar Urban Complex under the provisions of Haryana Development and Regulation of Urban Areas Act, 1975 and the Rules framed thereunder. As per terms and conditions of the licence and the agreement executed on LC-IV, the colonizer was required to comply with the provisions of the Act 1975 and the Rules 1976 thereof.

2. And, whereas, request was made vide application dated 10.02.2022 to grant permission for transfer of part licenced area measuring 5.6648 acres in favour of developer company as per the provisions of Rule 17 of Rules 1976. The request has been examined and observed that the above said area already stands transferred in favour of developer company and a request has been made to compound the offence so committed. Accordingly, while considering the request for composition under the provisions of Section 13 of Act 8 of 1975 and charging composition fees amounting Rs. 40,09,087/- in lieu thereof, ex-post facto permission to transfer the licenced land measuring 5.6648 acres in favour of developer company i.e. DLF Home Developers Ltd. from land owner licencees is hereby accorded. The revised land schedule is also enclosed, which may be read alongwith licence no. 123 of 2012 dated 20.12.2012 for the henceforth communication.

DA/As above.

Sub. : Grant of consent to Establish to M/s Proposed Group Housing Project by M/S DLF HOME DEVELOPERS LIMITED

Please refer to your application no. 26520307 received on dated 2023-05-16 in regional office Gurgaon North.

With reference to your above application for consent to establish,M/s Proposed Group Housing Project by M/S DLF HOME DEVELOPERS LIMITED is here by granted consent as per following specification/Terms and conditions.

Consent Under	AIR/WATER
Period of consent	01/06/2023 - 23/04/2033
Industry Type	Building and Construction projects having waste water generation more than 100 KLD in respective of their built-up area
Category	RED
Investment(In Lakh)	292100.0
Total Land Area (Sq. meter)	101523.9
Total Builtup Area (Sq. meter)	596893.1
Quantity of effluent	
1. Trade	0.0 KL/Day
2. Domestic	724.0 KL/Day
Number of outlets	1.0
Mode of discharge	
1. Domestic	STP
2. Trade	
Permissible Domestic Effluent Parameters	
1. BOD	10 mg/l
2. COD	50 mg/l

3. TSS	20 mg/l
4. O&G	10 mg/l
5. Total Nitrogen	10 mg/l
6. Total Phosphorus	1 mg/l
7. Faecal Coliform (MPN/100 ML)	Less than 100
Permissible Trade Effluent Parameters	
1. NA	mg/l
Number of stacks	3
Height of stack	
1. Stack to DG sets 2000 KVA x 9	9 Meter
2. Stack to DG set 1500 KVA	9 Meter
3. Stack to DG set 100 KVA	9 Meter
Permissible Emission parameters	
1. NA	
Capacity of boiler	
1. NA	Ton/hr
Type of Furnace	
1. NA	
Type of Fuel	
1. Diesel	1.1 KL/day

Regional Officer, Gurgaon North
Haryana State Pollution Control Board.

Terms and conditions

1. The industry has declared that the quantity of effluent shall be 724 KL/Day i.e 0KL/Day for Trade Effluent, 0 KL/Day for Cooling, 724 KL/Day for Domestic and the same should not exceed .
2. The above 'Consent to Establish' is valid for 60 months from the date of its issue to be extended for another one year at the discretion of the Board or till the time the unit starts its trial production whichever is earlier. The unit will have to set up the plant and obtain consent during this period.
3. The officer/official of the Board shall have the right to access and inspection of the industry in connection with the various processes and the treatment facilities being provided simultaneously with the construction of building/machinery. The effluent should conform the effluent standards as applicable
4. That necessary arrangement shall be made by the industry for the control of Air Pollution before commissioning the plant. The emitted pollutants will meet the emission and other standards as laid/will be prescribed by the Board from time to time.
5. The applicant will obtain consent under section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 and under section 21/22 of the Air (Prevention & Control of Pollution) Act, 1981 as amended to-date-even before starting trial production

6. The above Consent to Establish is further subject to the conditions that the unit complies with all the laws/rules/decisions and competent directions of the Board/Government and its functionaries in all respects before commissioning of the operation and during its actual working strictly.
7. No in-process or post-process objectionable emission or the effluent will be allowed, if the scheme furnished by the unit turns out to be defective in any actual experience
8. The Electricity Department will give only temporary connection and permanent connection to the unit will be given after verifying the consent granted by the Board, both under Water Act and Air Act.
9. Unit will raise the stack height of DG Set/Boiler as per Board's norms.
10. Unit will maintain proper logbook of Water meter/sub meter before/after commissioning.
11. That in the case of an industry or any other process the activity is located in an area approved and that in case the activity is sited in an residential or institutional or commercial or agricultural area, the necessary permission for siting such industry and process in an residential or institutional or commercial or agricultural area or controlled area under Town and Country Planning laws CLU or Municipal laws has to be obtained from the competent Authority in law permitting this deviation and be submitted in original with the request for consent to operate.
12. That there is no discharge directly or indirectly from the unit or the process into any interstate river or Yamuna River or River Ghaggar.
13. That the industry or the unit concerned is not sited within any prohibited distances according to the Environmental Laws and Rules, Notification, Orders and Policies of Central Pollution control Board and Haryana State Pollution Control Board.
14. That of the unit is discharging its sewage or trade effluent into the public sewer meant to receive trade effluent from industries etc. then the permission of the Competent Authority owing and operating such public sewer giving permission letter to his unit shall be submitted at time of consent to operate.
15. That if at any time, there is adverse report from any adjoining neighbor or any other aggrieved party or Municipal Committee or Zila Parishad or any other public body against the unit's pollution; the Consent to Establish so granted shall be revoked.
16. That all the financial dues required under the rules and policies of the Board have been deposited in full by the unit for this Consent to Establish.
17. In case of change of name from previous Consent to Establish granted, fresh Consent to Establish fee shall be levied.
18. Industry should adopt water conservation measures to ensure minimum consumption of water in their Process. Ground water based proposals of new industries should get clearance from Central Ground Water Authority for scientific development of previous resource.
19. That the unit will take all other clearances from concerned agencies, whenever required.
20. That the unit will not change its process without the prior permission of the Board.
21. That the Consent to Establish so granted will be invalid, if the unit falls in Aravali Area or non conforming area.
22. That the unit will comply with the Hazardous Waste Management Rules and will also make the non-leachate pit for storage of Hazardous waste and will undertake not to dispose off the same except for pit in their own premises or with the authorized disposal authority.

23. That the unit will submit an undertaking that it will comply with all the specific and general conditions as imposed in the above Consent to Establish within 30 days failing which Consent to Establish will be revoked.
24. That unit will obtain EIA from MoEF, if required at any stage.
25. In case of unit does not comply with the above conditions within the stipulated period, Consent to Establish will be revoked.
26. That unit will obtain consent to operate from the board before the start of product activity.

Specific Conditions

Other Conditions :

1. The project proponent will obtain all necessary clearances from all concerned departments. 2. Project proponent will not change the quantity of domestic effluent/trade effluent/air emission without prior permission of the Board. Project Proponent will obtain prior CTO before starting of production and apply for CTO/ CTE Extension at least 90 days before expiry date of this CTE expansion. 3. Project Proponent will install STP/ETP/ACPM along with the main project. 4. Project Proponent will install adequate acoustic enclosures/chambers on their DG SETS with proper stack height as per prescribed norms to meet the prescribed standards under EP Rules. 5. Project Proponent will comply with the provisions of Water Act, 1974, Air Act, 1981, Solid Waste Management Rules, 2016, Hazardous & Other Waste Management Rules, 2016, Plastic Waste Management Rules, 2016, E-Waste Management Rules, 2016, Battery Managements Rules, C&D Waste Management Rules, 2016& amendments and other applicable environmental legislation. 6. Project Proponent will use only treated effluent supplied from Sewage treatment plant during construction phase of the project 7. That this CTE for expansion will not provide any relaxation /benefit from any other Act/Rules/Regulations applicable to the project/land in question. 8. Project Proponent will not discharge any type Treated or untreated effluent outside the premises of the project. 9. Project Proponent will not use in their DG set as a fuel i.e. pet coke, furnace oil and LSHS etc. 10. Stack emission level should be stringent than the existing standards in terms of the identified critical pollutants. 11. Effective fugitive emission control measures should be imposed in the process, transportation, parking etc. 12. Encourage use of cleaner fuels (pet coke / furnace oil /LSHS may be avoided). 13. Best available technology may be used. For example usage of EAF/SAF/IF in place of Cupola Furnace, Usage of Supercritical technology in place of sub – critical technology. 14. Increase of green belt cover by 40% of the total land area beyond the permissible requirement of 33%, wherever feasible. 15. Stipulation of greenbelt outside the project premises such as avenue plantation, plantation in vacant areas, social forestry etc. 16. Assessment of carrying capacity of transportation load on the roads inside the industrial premises. If the roads required to be widened, shall be prescribed as a condition. 17. Project Proponent will not discharge any type of effluent inside & outside of the premises of the project and reuse/recycle of treated waste water be ensured. 18. Continuous monitoring of emission and effluent quality / quantity to be installed & will connect the same with server of CPCB and HSPCB. 19. A detailed water harvesting plan may be submitted by the project proponent. 20. Project Proponent will achieve zero discharge and install latest technology of STP/ETP and reuse/recycle of treated effluent. 21. In case, domestic waste water generation is more than 10 KLD, the industry may install STP. 22. Dumping of waste (fly ash, slag, red mud etc.) may be permitted only at designated locations approved by SPCBs/PCCs. 23. More stringent norms for management of hazardous waste. The waste generated should be preferably utilized in co-processing. 24. Monitoring of compliance of EC conditions may be submitted with third party audit every year. 25. Project Proponent will dispose off their waste/spent oil of DG sets only to authorize recyclers by the HSPCB. 26. The % of the CER may be least 1.5 times the slabs given in the OM dated 01.05.2018 for SPA and 2 times for CPA in case of Environmental Clearance. 27. Project proponent will comply all the directions of CPCB in this regard and will comply all the orders issued by any court in this regard. 28. Project Proponent will submit an affidavit regarding compliance of above said conditions within 30 days. 29. The above Consent to Establish is further subject to the conditions that the unit complies with all the laws/rules/decisions and competent directions of the Board/Government and its functionaries in all respects before commissioning of the operation and during its actual working strictly. 30. Unit will deploy anti –smog guns at site to comply with the above said directions & keep proper record of operation of the same and submit action taken report to this office within 03 days positively, failing which action shall be initiated as per applicable Acts/ Rules /Notifications. 31. Project proponent will comply with all the conditions mentioned in Environmental Clearance and submit the compliance of the same within 90 days to this office. 32. CTE expansion so granted is on the basis of detail submitted by the unit in online application, CTE expansion granted will be without prejudice to any violation made by unit in past & will be deemed revoked & further action will be taken as per law if any violation is observed at any stage. 33. The Project Proponent/unit will not claim any benefits on the basis of this CTE expansion in respect of past violation committed by them 34. Unit will not do any construction work in their project without obtaining valid renewed license from DTCP and CTE expansion will be become null and void if unit fails to renew DTCP license. 35. This CTE expansion is only valid for the area for which unit has obtained License /CLU issued by DTCP and Aravali clearance report from Deputy Commissioner, Gurugram. 36. At any stage, if any violation observed of any above conditions at any time, this CTE expansion stands cancelled /revoked & further action will be taken as per Law/Acts/Notifications/Policies/Rules.

Date : 01.03.2023

Subject : Assurance Certificate of DHBVN for Electrical load requirement for Residential Building Complex on land measuring 25.087 Acres, "GROUP HOUSING 63" project in Sector -63, Gurugram, Haryana.

Dear Sir,

We are constructing a Residential Multistory building at sector 63, Gurugram, Haryana.

The total approximate electrical load for the project will be about **14307KW** (Electrical Load Sheet is enclosed).

In view of the above it is requested that an Assuring Certificate Stating that this entire electrical load will be provided / Supplied by DHBVN, whenever electrical connection for the same is applied.

Kindly issue the assurance certificate to get the Environment clearance from HSEIAA (Haryana State Environment Impact Assessment Authority) / HSEAC (Haryana State Expert Appraisal Committee / MoEF & CC .

Thanking you.

Yours faithfully,

For : DLF HOME DEVELOPERS LTD.

2. TYPE OF BUILDING PERMITTED

The type of building permitted on this site shall be buildings designated in the form of flatted development for residential purpose or any ancillary or appurtenant building including community facilities, public amenities and public utility as may be prescribed and approved by the Director General, Town and Country Planning, Haryana.

3. GROUND COVERAGE AND FAR:

- Building shall only be permitted with in the portion of the site marked as buildable zone and no where else.
- The maximum coverage on ground floor shall be 35% on the area of 25.087 acres.
- The permissible FAR is 175 on the area of 25.087 acres. However, it shall not include community buildings which shall be as per the prescribed norms, the building plan of which shall have to be got approved from the Director, Town and Country Planning, Haryana. However, an additional FAR of 126904.16 Sqm. is also permitted in lieu of following granted TDR :-

S.No.	TDR Certificate No.	Area in Sqm.
1	01-600 of 2022	16682.015
2	01-1974 of 2022	54844.9346
3	01-1498 of 5/2022	41628.5969
4	01-565 of 7/2022 (Part)	13748.6135
TOTAL		126904.16

4. HEIGHT OF BUILDING:

The height of the building block, subject of course to the provisions of the site coverage and FAR, shall be governed by the following:-

- The maximum height of the buildings shall not be more than as allowed by National Airport Authority and shall not exceed 1.5 times (the width of the road abutting) plus the front open space.
- If a building abuts on two or more streets of different widths, the buildings shall be deemed to face upon the street that has the greater width and the height of the buildings shall be regulated by the width of that street and may be continued to this height to a depth of 24M, along the narrow street.
- Building/Structures which rise to 30 meters or more in height shall be constructed if no objection certificate has been obtained from the National Airport Authority.
- All building block(s) shall be constructed so as to maintain an interse distance not less the set back required for each building according to the table below:-

S.No.	HEIGHT OF BUILDING (in meters)	SET BACK / OPEN SPACE TO RELEFT AROUND BUILDINGS. (in meters)
1	10	3
2	15	5
3	18	6
4	21	7
5	24	8
6	27	9
7	30	10
8	35	11
9	40	12
10	45	13
11	50	14
12	55 & above	16

- If such interior or exterior open space is intended to be used for the benefit of more than one building belonging to the same owner, then the width of such open air space shall be the one specified for the tallest building as specified above.

5. SUB-DIVISION OF SITE:

- The site of the Group Housing Colony shall be governed by the Haryana Apartment Ownership Act.
- The site shall not be sub divided or fragmented in any manner whatsoever.

6. GATE POST AND BOUNDARY WALL.

Such Boundary wall, railings or their combination, hedges or fences along with gates and gate posts shall be constructed as per design approved by DG, TCP Haryana. In addition to the gate/gates an additional wicket gate not exceeding 1.25 metres width may be allowed in the front and side boundary wall provided that no main gate shall be allowed to open on the sector road/ public open space.

7. DENSITY.

The minimum density of the population provided in the colony shall be 100 PPA and the maximum be 300 PPA on the area of 25.087 acres and Maximum density (PPA) with TDR is Existing+200. For computing the density, the occupancy per main dwelling unit shall be taken as five persons and for service dwelling unit two persons per room or one person per 80 sq. feet of living area, whichever is more.

8. ACCOMMODATION FOR SERVICE POPULATION.

Adequate accommodation shall be provided for domestic servants and other service population of EWS. The number of such dwelling units for domestic servants shall not be less than 10% of the number of main dwelling units and the carpet area of such a unit if attached to the main units shall not be less than 140 sq.ft. In addition 15% of the total number of dwelling units having a minimum area of 200 sq.ft shall be earmarked for E.W.S category.

9. PARKING:

Parking will be as per clause No. 7.1 of Haryana Building Code 2017. The covered parking in the basement or in the form of multi level parking above ground level shall not be counted towards FAR. However, in case of multi level parking above the ground level the foot print of separate parking building block shall be counted towards ground coverage. In case of provision of mechanical parking in the basement floor/ upper stories, the floor to ceiling height of the basement / upper floor may be maximum of 4.5 mtr. Other than the mechanical parking the floor to ceiling height in upper floor shall not be more than 2.4mtr. below the hanging beam.

10. LIFTS AND RAMPS:

Ramps would be optional in Group Housing building in case of 100% stand by generators along with automatic switchover are provided for running of lifts along with stairs. However, in case of buildings having more than four storeys lifts with 100% stand by generators along with automatic switchover would be essential. Atleast one lift shall be provided with minimum size of 1.80 M X 3.00 M. The clear width of the ramp leading to the basement shall be 4.00 metres with an adequate slope not steeper than 1:10. The entry and exit shall be separate preferably at opposite ends.

11. OPEN SPACES:

While all the open spaces including those between the blocks and wings of buildings shall be developed, equipped and landscaped according to the plan approved by the DG, TCP, Haryana. At least 15% of the total site area shall be developed as organised open space i.e. tot lots and play ground.

12. APPROVAL OF BUILDING PLANS:

The building plans of the buildings to be constructed at site shall have to be got approved from the Director Town & Country Planning, Haryana/ any other persons or the committee authorized by him, as per provision of Haryana Building Code -2017 (as amended time to time) before starting up the construction.

13. BUILDING BYE- LAWS:

The construction of building /buildings shall be governed by the Haryana Building Code -2017 and Indian Standard Code No. 4963-1987 regarding provisions for Physically Handicapped Persons. The owner shall also follow the provisions of Section 46 of the Persons With Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act, 1995 which includes construction of ramps in public buildings, adoption of toilets for wheel chair user, Braille symbols and auditory signals in elevators or lifts and other relevant measures. On the points where such rules are silent and stipulate no condition or norms, the model building bylaw issued by the Indian Standards, and as given in the National Building Code of India shall be followed as may be approved by DTCP, Haryana.

14. CONVENIENT SHOPPING.

0.5% of the total area shall be reserved to cater for essential convenient shopping with the following conditions.

- The ground coverage of 100% with FAR of 100 will be permissible. However this will be a part of the permissible ground coverage and FAR of the Group Housing Colony.
- The size of Kiosk/Shops shall not be more than 2.75 m x 2.75 m and 2.75 m x 8.25 m.
- The height of Kiosk/Shops/Departmental Store shall not exceed 4.00 meters.

15. PROVISION OF COMMUNITY BUILDINGS.

The community buildings shall be provided as per the composite norms in the Group Housing Scheme.

16. BASEMENT:

- The number of basement storeys in Group Housing shall be as per the Haryana Building Code, 2017.
- The construction of basement shall be executed as per the Haryana Building Code, 2017.

17. APPROACH TO SITE:

The vehicular approach to the site and parking lots shall be planned and provided giving due consideration to the junctions of and the junctions with the surrounding roads to the satisfaction of the DTCP, Haryana.

18. FIRE SAFETY MEASURES:

- The owner will ensure the provision of proper fire safety measures in the multi storeyed buildings conforming to the provisions of Haryana Building Code, 2016/ National Building Code of India and t the same should be got certified from the competent authority.
- Electric Sub Station / generator room if provided should be on solid ground near DG/LT. Control panel on ground floor or in upper basement and it should be located on outer periphery of the building, the same should be got approved from the competent authority.
- To ensure fire fighting scheme shall be got approved from the Director, Urban Local Bodies, Haryana or any person authorize by the Director, Urban Local Bodies, Haryana. These approval shall be obtained prior to starting the construction work at site.

19. SOLAR WATER HEATING SYSTEM

The provision of solar water heating system shall be as per norms specified by HAREDA and shall be made operational in each building block before applying for an occupation certificate.

20. RAIN WATER HARVESTING SYSTEM.

The rain water harvesting system shall be provided as per Central Ground Water Authority norms/Haryana Govt. notification as applicable.

- The coloniser shall obtain the clearance/NOC as per the provisions of the Notification No. S.O. 1533 (E) Dated 14.09.2006 issued by Ministry of Environment and Forest, Government of India before starting the construction/ execution of development works at site.

- That the coloniser/owner shall use only Light-Emitting Diode lamps (LED) fitting for internal lighting well as campus lighting.

- The colonizer/owner shall convey the ultimate power load requirement of the project to the concerned power utility to enable the provision of site for transformers/switching stations/electric sub-station as per the norms prescribed by the power utility in the project site within 2 months from the issuance of sanction of building plans.

- That no separate zoning plan is approved for community sites earmarked within a Group Housing Colony. The community building/buildings shall be constructed by the coloniser/owner as per provision of The Haryana development & Regulation of Urban Areas (Amendment and validation) Act No. 4 of 2012, falling which the said site shall vest with the Govet 1975.

- That the colonizer/owner shall ensure the installation of Solar Photovoltaic Power Plant as per the provisions of order No. 22/52/2005-5Power dated 21.03.2016 issued by Haryana Government Renewable Energy Department.

- That the colonizer/owner shall strictly comply with the directions issued vide notification No. 19/6/2016-5P dated 31.03.2016 issued by Haryana Government Renewable Energy Department.

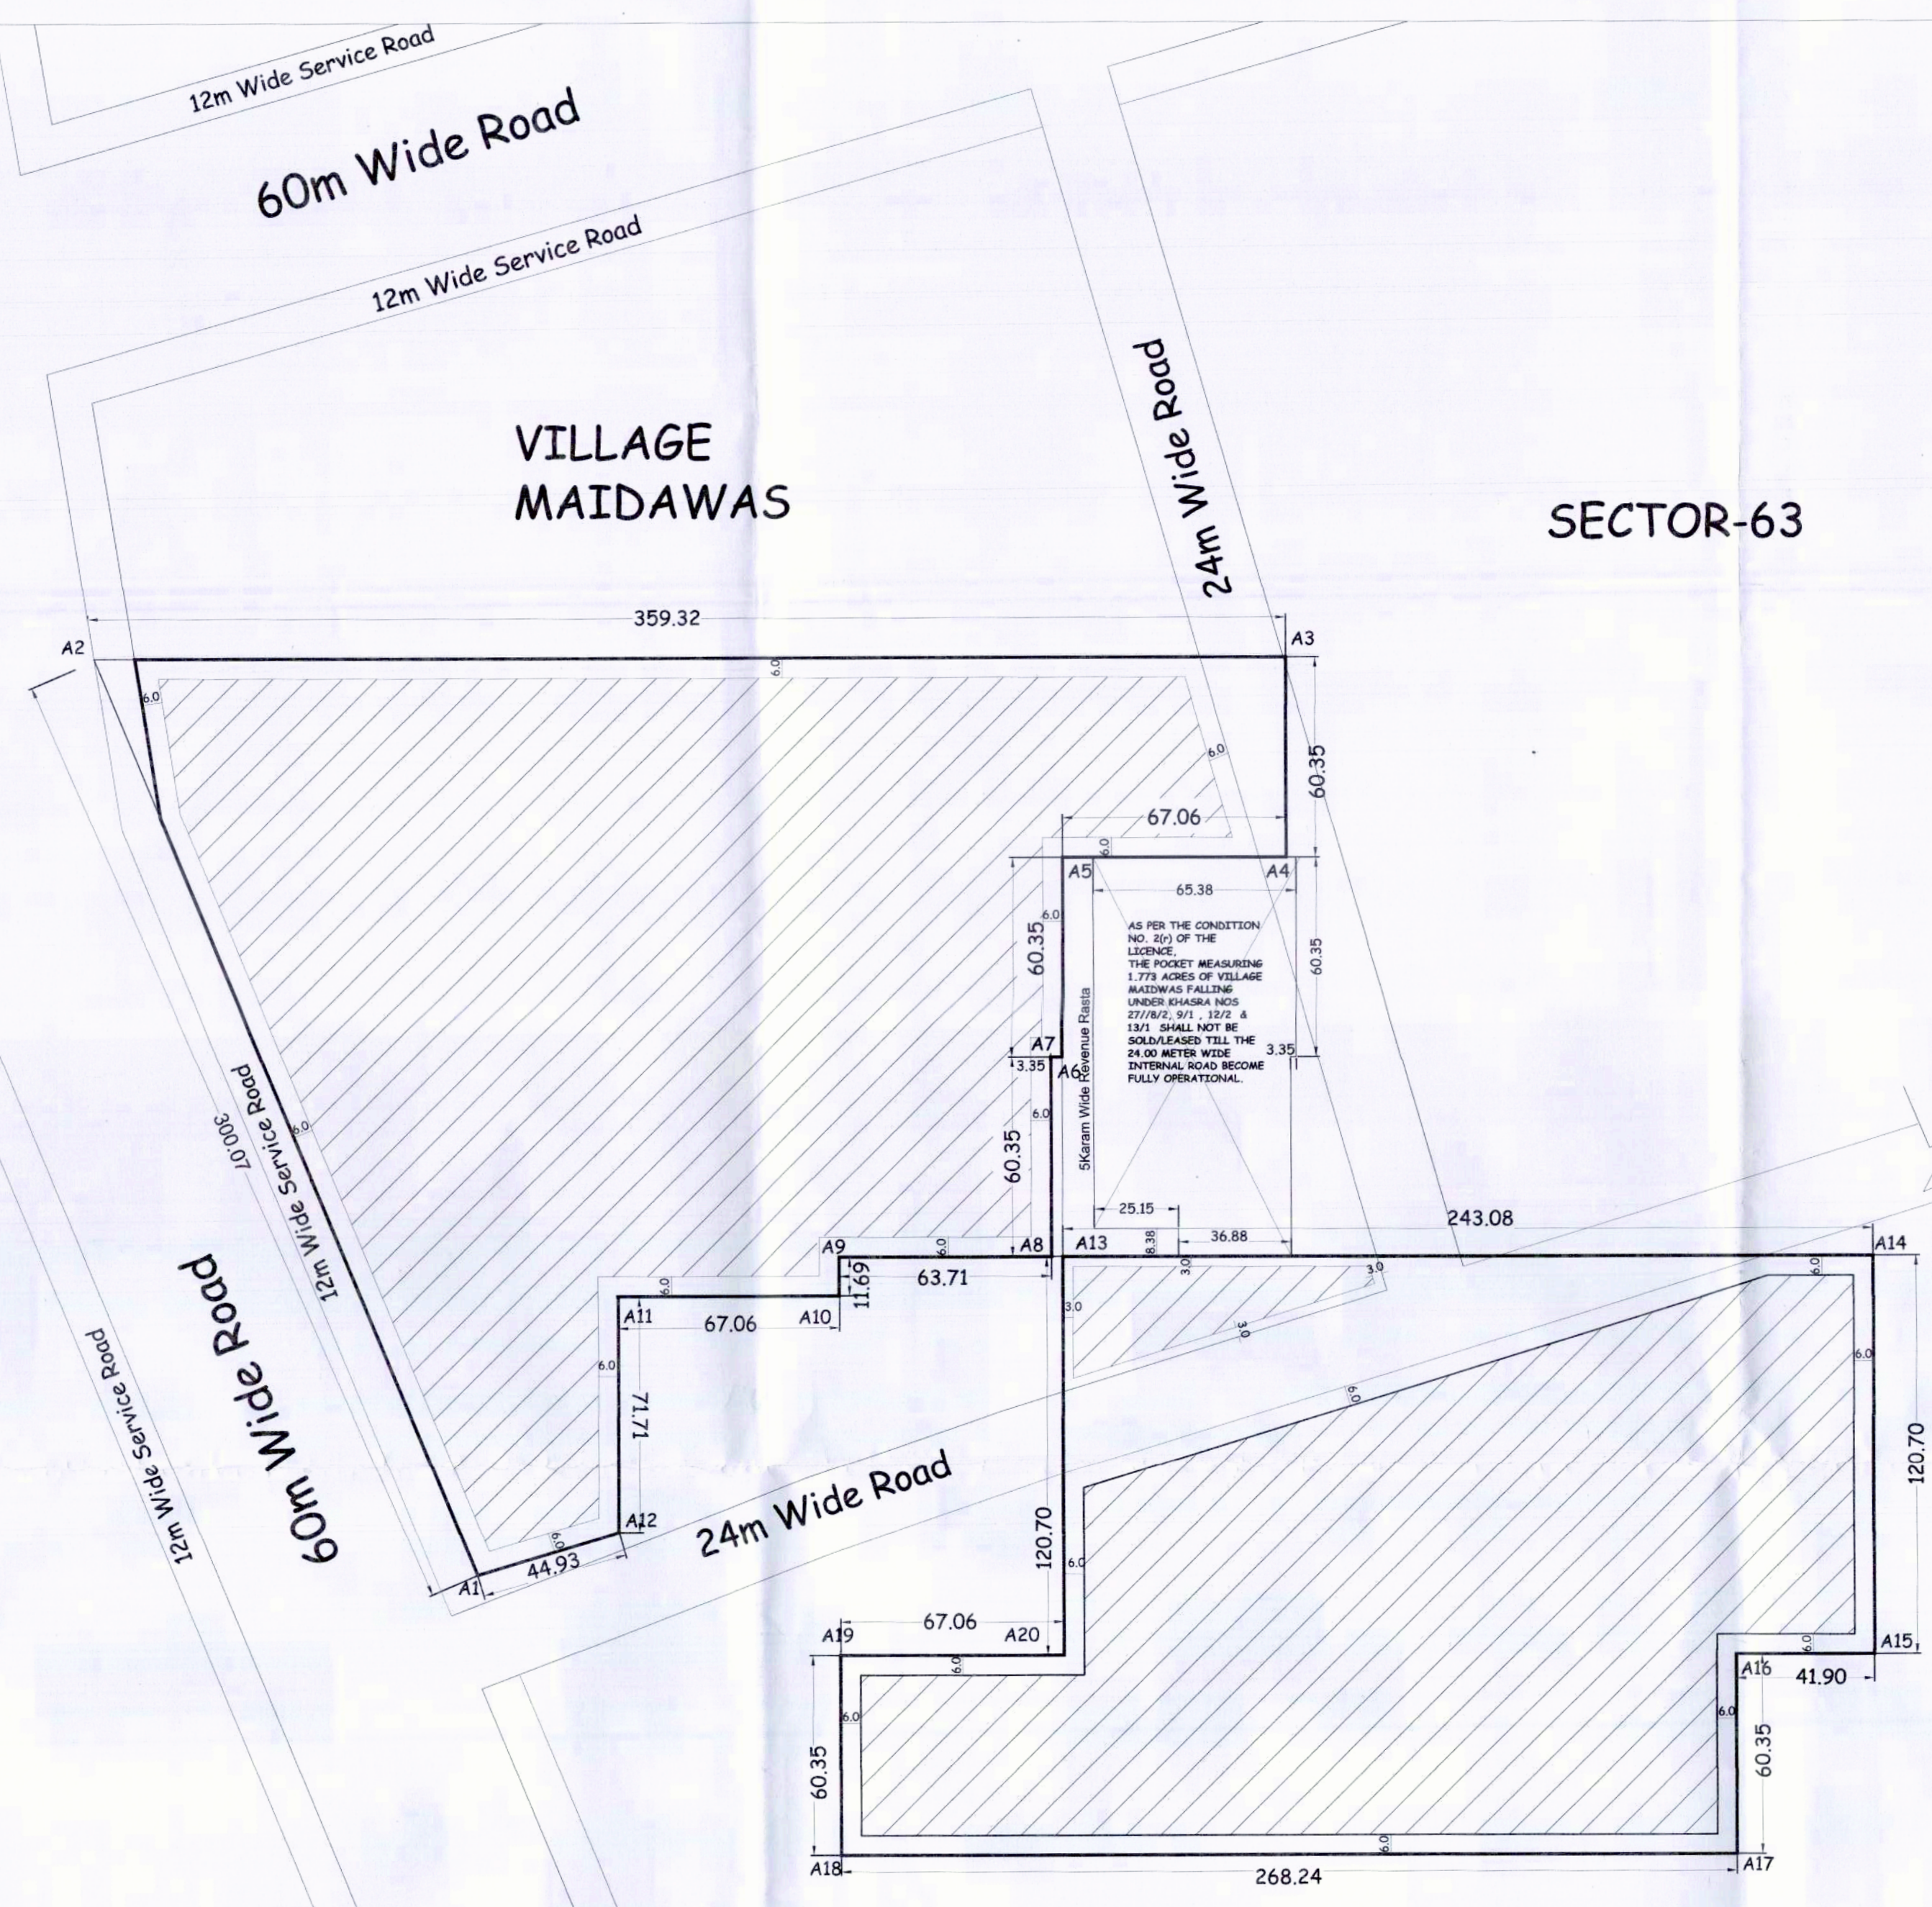

- That the coloniser/owner shall strictly comply with the policy issued vide Memo no. LC-147/2021/4830-31 dated 26.02.2021 issued by Haryana Government regarding allotment of EWS Flats.

TEST REPORT (Soil)

Report No. :	IRDH-0924-COM-SL-197
Date of Reporting	13/09/2024
Issued to	M/s Ind Tech House Consult, G-8/6, Ground Floor, Sector-11, Rohini, Delhi-110085
Project Name	Environment Clearance for proposed Group Housing Project (25.087 Acres), Village-Maidawas, Sector-63, Gurugram, Haryana by M/s. DLF Home Developers Limited
Nature of Sample	Soil
Identification of Sample	Soil Sample collected from Project Site
Date of Sampling	06/09/2024
Method of sampling	As per standard method
Date of testing:	06/09/2024 To 13/09/2024
Sampled by	IR&DH - Team

RESULTS

S. No.	Parameter	Test Method	Results	Unit
1.	pH	IS 2720(P-26):2021	8.12	--
2.	Conductivity	IS 14767:2021	445.0	µS/cm
3.	Moisture	IS 2720 (P-2):2020	12.5	% by mass
4.	Water Holding Capacity	IRDH/SOP-SL/07	20.40	%
5.	Specific Gravity	IS 2720 (P-3):2021	1.91	-
6.	Bulk density	IRDH/SOP-SL/06	1.41	gm/cc
7.	Chloride	IRDH/SOP-SL/14	232.0	mg/kg
8.	Calcium	IRDH/SOP-SL/17	1640.0	mg/kg
9.	Sodium	IRDH/SOP-SL/11	161.0	mg/kg
10.	Potassium	IRDH/SOP-SL/12	52.2	mg/kg
11.	Magnesium	IRDH/SOP-SL/16	152.0	mg/kg
12.	Organic matter	IS 2720 (P-22):2020	0.53	% by mass
13.	Cation Exchange Capacity(CEC)	IRDH/SOP-SL/09	14.2	meq/100gm
14.	Available nitrogen	IS 14684:2005	57.0	mg/kg
15.	Available Phosphorous	IRDH/SOP-SL/10	7.65	mg/kg

ANNEXURE XV

Environment Policy

25th January 2023

DLF recognizes the importance of protecting the environment through adopting appropriate mitigating and control measures, during Construction, Operations and Maintenance of its projects/ assets.

We will ensure adequate controls and processes to safeguard the environment in accordance with the relevant regulations/ standards/ guidelines.

We are committed to:

- Compliance of environmental legislation and regulation stipulated by statutory bodies from time to time.
- Maintain transparency in matters of Environmental compliance.
- Creating the required awareness on Environmental requirements and statutory norms with the aim of increasing environmental stewardship amongst employees, public, and other stake holders.
- Conducting our activities in an environmentally responsible manner that fosters sustainability.
- Minimizing the negative impact of our operations on the environment by improving the efficiency of natural resources usage, waste management processes and encouraging the integration of renewable energy resources wherever possible.
- Deploying/ developing the right resources and competence to understand and implement environmental measures as per best management practices applicable to the industry.
- Working for continual improvement of our environmental performance through focused objectives, performance targets and certifications as required.
- Reviewing this policy at regular intervals.

A handwritten signature in black ink, appearing to read 'P. Ramakrishnan', written over a horizontal line.

Chief Technical Officer, DLF LTD

पर्यावरण नीति

25 जनवरी 2023

डीएलएफ अपनी परियोजनाओं/ संपत्तियों के निर्माण, संचालन और रखरखाव के दौरान उपयुक्त न्यूनीकरण और नियंत्रण उपायों को अपनाकर पर्यावरण की रक्षा करने के महत्व को पहचानता है। हम संबंधित विनियमों/ मानकों/ दिशानिर्देशों के अनुसार पर्यावरण की सुरक्षा के लिए पर्याप्त नियंत्रण और प्रक्रियाएं सुनिश्चित करेंगे।

हम इसके लिए प्रतिबद्ध हैं:

- समय-समय पर वैधानिक निकायों द्वारा निर्धारित पर्यावरणीय कानून और विनियमन का अनुपालन।
- पर्यावरण अनुपालन के मामलों में पारदर्शिता बनाए रखना।
- कर्मचारियों, जनता और अन्य हितधारकों के बीच पर्यावरणीय नेतृत्व बढ़ाने के उद्देश्य से पर्यावरणीय आवश्यकताओं और वैधानिक मानदंडों पर आवश्यक जागरूकता करना।
- हमारी गतिविधियों को पर्यावरणीय रूप से जिम्मेदार तरीके से संचालित करना जो निरंतरता को बढ़ावा देता है।
- प्राकृतिक संसाधनों, अपशिष्ट प्रबंधन प्रक्रियाओं के उपयोग की दक्षता में सुधार करके और जहां भी संभव हो नवीकरणीय ऊर्जा संसाधनों के एकीकरण को प्रोत्साहित करके पर्यावरण पर हमारे संचालन के नकारात्मक प्रभाव को कम करना।
- उद्योग पर लागू सर्वोत्तम प्रबंधन प्रथाओं के अनुसार पर्यावरणीय उपायों को समझने और कार्यान्वित करने के लिए सही संसाधनों और क्षमता को तैनात/ विकसित करना।
- केंद्रित उद्देश्यों, प्रदर्शन लक्ष्यों और आवश्यकतानुसार प्रमाणपत्रों के माध्यम से हमारे पर्यावरणीय प्रदर्शन के निरंतर सुधार के लिए काम करना।
- नियमित अंतराल पर इस नीति की समीक्षा करना।

पी. रामकृष्णन

चीफ टेक्निकल ऑफिसर, डीएलएफ लिमिटेड
